

Distributed Team Student CV

Name: Ana Luisa Correia Teixeira, I prefer to be called: Luisa

E-mail: anaaateixeira08@hotmail.com

University: Universidade de Trás-os-Montes e Alto Douro, Portugal

Personal Goals and Interests

In general, my interests are medical imaging and its analysis, health technology management and applications for health data control and monitoring.

Through this work, my main goal is to improve my group working skills and learn new things.

Skills (rating: 0 = none, 5 = most experience)

Languages: 0 Java 3 C 3 C++ 3 C# 1 Python 1 JavaScript 2 MatLab

Platform: 5 Windows 5 iOS 5 Android

Other: 0 Version Control (Git, SVN, etc.) 2 Data Base (SQL, MongoDB, etc.)

4 Written English 3 Spoken English Other Languages:

Positions Wanted

Choose all of interest: 0 = no interested, 5 = most interested

Roles: 0 Project Manager 4 Requirements Analyst 2 System Architect

1 Developer 4 Tester

Work Assignments of Interest

Please indicate which you are interested in working on (0=not interested, 5=most interested).

3 Android App 2 Database 1 Server

5 "AI" module 4 Web Page

Other Skills or Experience

My degree is in Information and Communication Technologies. Throughout the course I learned some programming languages, like C# and also, I developed, in a class context, together with 2 colleagues, a Web application (website of a wine store) using the ASP.NET MVC technology. I worked mostly with "Visual Studio" software, but I also had a project in Outsystems. My final graduation project was "Automatic Segmentation of Thermal Images of the Hands in Diabetic Patients" where I worked with MatLab.

Now I am attending the master's degree in Biomedical Engineering.
